WORK EXPERIENCE

UI / UX Intern | BharatGrow

May 2026 – Present

Tech Stack: Figma, React.js, TailwindCSS.

- Designed responsive UI layouts and navigation flows in **Figma** for **fintech** web applications.
- Worked on BharatGrow's official website to improve responsiveness, UI consistency, and user experience across devices.
- Developed and optimized 10+ web pages by improving layouts, color systems, typography, themes, and content structure.
- Implemented Context API and responsive login/authentication interfaces to improve frontend scalability and state management.

Frontend Developer Intern | Rashmi Enterprises

October 2025 – March 2026

Tech Stack: React.js, TailwindCSS, REST APIs, Authentication Page

- Developed a responsive frontend website using **React.js** and **Tailwind CSS**.
- Built **reusable** UI components and optimized layouts for mobile and desktop compatibility.
- Integrated **REST APIs** to enable dynamic data handling and smooth user interaction.
- Added **Google OAuth** (Open Authentication) **with manual authentication**, improving **authentication process** and enhancing user accessibility.
- Collaborated on requirement gathering and frontend improvements based on user feedback.

ADDITIONAL INFORMATION

- Available for immediate joining
- Open to Frontend Developer, React Developer, and UI/UX Designer roles
- Comfortable working in startup and fast-paced environments
- Strong interest in fintech products, modern web applications, and scalable frontend systems
